# SUBJECT INDEX

Anisaldehyde vapor
photophysics and photochemistry of anisaldehyde vapor, 171
Antenna effect
studies of the antenna effect in polymer molecules: photosensitized oxidation of perylene in an aqueous solution of poly(sodium styrenesulfonate-co-2-vinylnaphthalene), 147

4,4′-Bipyridyl
radicals of 4,4′-bipyridyl and *trans*-1,2-dipyridylethylenes in organic solvents formed by laser flash photolysis, 209
Bis-2H-tetrazoles
bis-2H-tetrazoles VII: Quantum yields of bis-2H-tetrazoles and studies of thermal consecutive reactions of bis-nitrile imines by time-resolved spectroscopy, 11
Buckingham theorem
industrial photochemistry XV: Interest and limits of the Buckingham theorem for the design of industrial photoreactors, 83

Carbonyl
prototropic reactions of 2-carbonyl-substituted fluorenes in the ground and first excited singlet states, 53
$n$-$C_3H_7O$ radicals
fluorescence spectrum and lifetime of $n$-$C_3H_7O$ radicals, 163
Chemical vapor deposition
photochemical properties of ultrathin $TiO_2$ films prepared by chemical vapor deposition, 283
Chloroaromatic derivatives
photocatalysed transformation of chloroaromatic derivatives on zinc oxide II: Dichlorobenzenes, 103
photocatalysed transformation of chloroaromatic derivatives of zinc oxide III: Chlorophenols, 117
Chlorophenols
photocatalysed transformation of chloroaromatic derivatives of zinc oxide III: Chlorophenols, 117
Cinnamic acid
a simple method to estimate the approximate solid state quantum yield for photodimerization of *trans*-cinnamic acid, 141
Computer modelling
an experimental and computer modelling study of the photochemical reaction of *tert*-butylguaiacylcarbinol sensitized by *p*-methoxypropiophenone in aerated dimethoxyethane solution, 407
Copper
the interaction of triplet excited state ketones with bis(acetylacetonato)-copper(II): evidence for electron transfer, 67
Copper(I) cyanides
magnetic field effects in photoredox reaction of copper(I) cyanides, 129

Dichlorobenzenes
photocatalysed transformation of chloroaromatic derivatives on zinc oxide II: Dichlorobenzenes, 103
Dielectric interactions
solvatochromic shifts: the influence of the medium on the energy of electronic states, 293
3,4-Dimercaptotoluene
self-sensitized photo-oxidation of platinum(II) complexes of 1,10-phenanthroline with 3,4-dimercaptotoluene and thiosalicylic acid by $^1O_2$, 199
Dimethoxyethane
an experimental and computer modelling study of the photochemical reaction of *tert*-butylguaiacylcarbinol sensitized by *p*-methoxypropiophenone in aerated dimethoxyethane solution, 407

Electron transfer
the interaction of triplet excited state ketones with bis(acetylacetonato)-

© Elsevier Sequoia/Printed in The Netherlands

copper(II): evidence for electron transfer, 67
Electronic states
solvatochromic shifts: the influence of the medium on the energy of electronic states, 293
Environment
photochemistry and environment XII: phototransformation of 3-nitrophenol in aqueous solution, 331

Faujasites
modification of photochemical reactivity by zeolites: location of guests within faujasites by heavy-atom-induced phosphorescence, 157
Flash photolysis
on the reactivity of phosphinoyl and thiophosphinoyl radicals: flash photolysis studies, 31
photochemistry and photopolymerization activity of novel perester derivatives of fluorenone: a conventional and laser flash photolysis study, 389
Fluorenes
prototropic reactions of 2-carbonyl-substituted fluorenes in the ground and first excited singlet states, 53
Fluorenone
photochemistry and photopolymerization activity of novel perester derivatives of fluorenone: a conventional and laser flash photolysis study, 389
Fluorescence spectrum
fluorescence spectrum and lifetime of $n$-$C_3H_7O$ radicals, 163
Fluorescent relay
industrial photochemistry XIV: Light distribution around an external source made of a fluorescent relay, 343

Guests
modification of photochemical reactivity by zeolites: location of guests within faujasites by heavy-atom-induced phosphorescence, 157

Halogen substitution
dye-photoinitiated chain reaction of halogen substitution by a sulpho group in halogenonaphthols, 275
Halogenonaphthols
dye-photoinitiated chain reaction of halogen subsitution by a sulpho group in halogenonaphthols, 275
Heavy atoms
modification of photochemical reactivity by zeolites: location of guests within faujasites by heavy-atom-induced phosphorescence, 157
Helicene [5]
solid state photochemistry at 4.2 K: the photocyclization of [5] helicene to dihydrobenzoperylene in Shpolskii matrices, 239

Imines
bis-2H-tetrazoles VII: Quantum yields of bis-2H-tetrazoles and studies of thermal consecutive reactions of bis-nitrile imines by time-resolved spectroscopy, 11
3-Indoleacetic acid
direct and dye-sensitized aqueous photo-oxidation of 3-indoleacetic acid, methyl-3-indoleacetate and 1-methyl-3-indoleacetic acid I: Analysis of products, 361
direct and dye-sensitized aqueous photo-oxidation of 3-indoleacetic acid, methyl-3-indoleacetate and 1-methyl-3-indoleacetic acid II: Quantum yields and mechanism, 377
Industrial photochemistry
industrial photochemistry XV: Interest and limits of the Buckingham theorem for the design of industrial photoreactors, 83
industrial photochemistry XIV: Light distribution around an external source made of a fluorescent relay, 343
Intraligand photoreactions
intraligand photoreactions II: Photochemistry of pentakis(methylisocyanide) (pyridine-4-aldehyde-4-nitrophenyl-hydrazone)ruthenium-(II) tetrafluoroborate, 75

Ketones
quenching of ketone triplet states by silanes, 1
the interaction of triplet excited state ketones with bis(acetylacetonato)-copper(II): evidence for electron transfer, 67

Laser dyes
photophysics and dynamics of regidized coumarin laser dyes, 259
Laser flash photolysis
radicals of 4,4′-bipyridyl and *trans*-1,2-dipyridylethylenes in organic solvents formed by laser flash photolysis, 209
Laser photolysis
fluorescence spectrum and lifetime of $n$-$C_3H_7O$ radicals, 163

Magnetic field effects
magnetic field effects in photoredox reaction of copper(I) cyanides, 129
*p*-Methoxypropiophenone
an experimental and computer modelling study of the photochemical reaction of *tert*-butylguaiacylcarbinol sensitized by *p*-methoxypropiophenone in aerated dimethoxyethane solution, 407
Methyl-3-indoleacetate
direct and dye-sensitized aqueous photo-oxidation of 3-indoleacetic acid, methyl-3-indoleacetate and 1-methyl-3-indoleacetic acid I: Analysis of products, 361
direct and dye-sensitized aqueous photo-oxidation of 3-indoleacetic acid, methyl-3-indoleacetate and 1-methyl-3-indoleacetic acid II: Quantum yields and mechanism, 377
1-Methyl-3-indoleacetic acid
direct and dye-sensitized aqueous photo-oxidation of 3-indoleacetic acid, methyl-3-indoleacetate and 1-methyl-3-indoleacetic acid I: Analysis of products, 361
direct and dye-sensitized aqueous photo-oxidation of 3-indoleacetic acid, methyl-3-indoleacetate and 1-methyl-3-indoleacetic acid II: Quantum yields and mechanism, 377
3-Nitrophenol
photochemistry and environment XII: Phototransformation of 3-nitrophenol in aqueous solution, 331

Perester derivatives
photochemistry and photopolymerization activity of novel perester derivatives of fluorenone: a conventional and laser flash photolysis study, 389
Perylene
studies of the antenna effect in polymer molecules: photo-sensitized oxidation of perylene in an aqueous solution of poly(sodium styrenesulfonate-co-2-vinylnaphthalene), 147
1,10-Phenanthroline
self-sensitized photo-oxidation of platinum(II) complexes of 1,10-phenanthroline with 3,4-dimercaptotoluene and thiosalicylic acid by $^1O_2$, 199
3-Phenyl-1,2-dihydronaphthalene
photoacoustic determination of the photostability of 3-phenyl-1,2-dihydronaphthalene, 401
Phosphinoyl radicals
on the reactivity of phosphinoyl and thiophosphinoyl radicals; flash photolysis studies, 31
Photo-oxidation
direct and dye-sensitized aqueous photo-oxidation of 3-indoleacetic acid, methyl-3-indoleacetate and 1-methyl-3-indoleacetic acid I: Analysis of products, 361
direct and dye-sensitized aqueous photo-oxidation of 3-indoleacetic acid, methyl-3-indoleacetate and 1-methyl-3-indoleacetic acid II: Quantum yields and mechanism, 377
self-sensitized photo-oxidation of platinum(II) complexes of 1,10-phenanthroline with 3,4-dimercaptotoluene and thiosalicylic acid by $^1O_2$, 199
Photoacoustic effect
photoacoustic determination of the photostability of 3-phenyl-1,2-dihydronaphthalene, 401
Photocatalysis
photocatalysed transformation of chloroaromatic derivatives on zinc oxide II: Dichlorobenzenes, 103
photocatalysed transformation of chloroaromatic derivatives on zinc oxide III: Chlorophenols, 117
Photocyclization
solid state photochemistry at 4.2 K: the photocyclization of [5]helicene to dihydrobenzoperylene in Shpolskii matrices, 239
the photochemistry of 3,5,3′,5′-tetrasubstituted stilbenes: formation of

an equilibrium mixture of isomeric 4,4′-dihydrophenanthrene derivatives, 221
Photocyclodehydrogenation
the photochemistry of 3,5,3′,5′-tetrasubstituted stilbenes: formation of an equilibrium mixture of isomeric 4,4′-dihydrophenanthrene derivatives, 221
Photodimerization
a simple method to estimate the approximate solid state quantum yield for photodimerization of *trans*-cinnamic acid, 141
Photoemission
photochemical reactions of uranyl ion in nitric acid — quantum yields of photoemission and photoreduction with ethanol, 183
Photoinitiators
photochemistry and photopolymerization study on 2-acetoxy and methyl-2-acetoxy derivatives of thiozanthone as photoinitiators, 249
Photoisomerization
substituent effects on the photoisomerization of 5(*E*)-styryl 1,3-dimethyluracil, 41
the photochemistry of 3,5,3′,5′-tetrasubstituted stilbenes: formation of an equilibrium mixture of isomeric 4,4′-dihydrophenanthrene derivatives, 221
Photophysics
photophysics and dynamics of regidized coumarin laser dyes, 259
photophysics and photochemistry of anisaldehyde vapor, 171
Photopolymerization
photochemistry and photopolymerization study on 2-acetoxy and methyl-2-acetoxy derivatives of thiozanthone as photoinitiators, 249
photochemistry and photopolymerization activity of novel perester derivatives of fluorenone: a conventional and laser flash photolysis study, 389
Photoreactors
industrial photochemistry XV: Interest and limits of the Buckingham theorem for the design of industrial photoreactors, 83
Photoredox reaction
magnetic field effects in photoredox reaction of copper(I) cyanides, 129
Photoreduction
photochemical reactions of uranyl ion in nitric acid — quantum yields of photoemission and photoreduction with ethanol, 183
Photosensitized oxidation
studies of the antenna effect in polymer molecules: photo-sensitized oxidation of perylene in an aqueous solution of poly(sodium styrenesulfonate-co-2-vinylnaphthalene), 147
Photostability
photoacoustic determination of the photostability of 3-phenyl-1,2-dihydronaphthalene, 401
Phototransformation
photochemistry and environment XII: Phototransformation of 3-nitrophenol in aqueous solution, 331
Platinum(II) complexes
self-sensitized photo-oxidation of platinum(II) complexes of 1,10-phenanthroline with 3,4-dimercaptotoluene and thiosalicylic acid by $^1O_2$, 199
Polymers
studies of the antenna effect in polymer molecules: photo-sensitized oxidation of perylene in an aqueous solution of poly(sodium styrenesulfonate-co-2-vinylnaphthalene), 147
Prototropic reactions
prototropic reactions of 2-carbonyl-substituted fluorenes in the ground and first excited singlet states, 53

Quenching
quenching of ketone triplet states by silanes, 1

Ruthenium
intraligand photoreactions II: Photochemistry of pentakis(methylisocyanide) (pyridine-4-aldehyde-4-nitrophenyl-hydrazone)ruthenium-(II) tetrafluoroborate, 75

Shpolskii matrices
solid state photochemistry at 4.2 K: the photocyclization of [5] helicene to dihydrobenzoperylene in Shpolskii matrices, 239

Silanes
quenching of ketone triplet states by silanes, 1
Solid state
a simple method to estimate the approximate solid state quantum yield for photodimerization of *trans*-cinnamic acid, 141
Solute-medium interactions
solvatochromic shifts: the influence of the medium on the energy of electronic states, 293
Solvatochromic shifts
solvatochromic shifts: the influence of the medium on the energy of electronic states, 293
Substituent effects
substituent effects on the photoisomerization of 5(*E*)-styryl 1,3-dimethyluracil, 41

*Tert*-butylguaiacylcarbinol
an experimental and computer modelling study of the photochemical reaction of *tert*-butylguaiacylcarbinol sensitized by *p*-methoxypropiophenone in aerated dimethoxyethane solution, 407
Tetrasubstituted stilbenes
the photochemistry of 3,5,3′,5′-tetrasubstituted stilbenes: formation of an equilibrium mixture of isomeric 4,4′-dihydrophenanthrene derivatives, 221
Thermal reactions
bis-2H-tetrazoles VII: Quantum yields of bis-2H-tetrazoles and studies of thermal consecutive reactions of bis-nitrile imines by time-resolved spectroscopy, 11
Thiophosphinoyl radicals
on the reactivity of phosphinoyl and thiophosphinoyl radicals: flash photolysis studies, 31
Thiosalicylic acid
self-sensitized photo-oxidation of platinum(II) complexes of 1,10-phenanthroline with 3,4-dimercaptotoluene and thiosalicylic acid by $^1O_2$, 199
Time-resolved spectroscopy
bis-2H-tetrazoles VII: Quantum yields of bis-2H-tetrazoles and studies of thermal consecutive reactions of bis-nitrile imines by time-resolved spectroscopy, 11
$TiO_2$
photochemical properties of ultrathin $TiO_2$ films prepared by chemical vapor deposition, 283
*Trans*-1,2-dipyridylethylenes
radicals of 4,4′-bipyridyl and *trans*-1,2-dipyridylethylenes in organic solvents formed by laser flash photolysis, 209

Uracil
substituent effects on the photoisomerization of 5(*E*)-styryl 1,3-dimethyluracil, 41
Uranyl ion
photochemical reactions of uranyl ion in nitric acid — quantum yields of photoemission and photoreduction with ethanol, 183

Zeolites
modification of photochemical reactivity by zeolites: location of guests within faujasites by heavy-atom-induced phosphorescence, 157
Zinc oxide
photocatalysed transformation of chloroaromatic derivatives on zinc oxide II: Dichlorobenzenes, 103
photocatalysed transformation of chloroaromatic derivatives of zinc oxide III: Chlorophenols, 117
